GitHub — LinkedIn — LeetCode — Portfolio

Education

Indian Institute of Information Technology Dharwad
Bachelor of Technology in Computer Science and Engineering

2024 – 2028
CGPA: 7.5

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, Authentication, JWT, WebSockets
Databases: MongoDB, MySQL
Developer Tools: Git, GitHub, Docker, Postman, VS Code, Vercel
Cloud & Media: Cloudinary, ImageKit
Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Projects

MultiCart - Multi Vendor E-Commerce Platform
GitHub Repository

Next.js — MongoDB — NextAuth.js

- Developed a full-stack multi-vendor e-commerce platform supporting Users, Vendors, and Administrators with role-based access control.
- Implemented secure authentication and authorization using NextAuth.js and JWT, enabling protected routes and dashboard-level access.
- Built vendor dashboards for product management, inventory updates, and order monitoring using Next.js API routes and MongoDB.
- Designed shopping cart and order management systems allowing users to browse products, manage carts, and place orders seamlessly.
- Developed responsive user interfaces using Next.js, React, Tailwind CSS, and Framer Motion.
- Integrated MongoDB and Mongoose for efficient management of products, orders, vendors, and customer data.

Car Rental Platform
GitHub Repository

React.js — Node.js — Express.js — MongoDB

- Developed a full-stack car rental platform enabling users to browse vehicles, view details, and manage online bookings.
- Implemented authentication, authorization, and CRUD operations for vehicle listings and rental reservations.
- Built RESTful APIs using Express.js for vehicle management, booking workflows, and user account operations.
- Integrated MongoDB database for efficient storage and retrieval of vehicle inventory, user profiles, and booking records.
- Designed responsive user interfaces using React.js and Tailwind CSS for enhanced user experience.
- Integrated Stripe payment gateway to enable secure online payments and streamlined checkout experiences for customers.
- Integrated Cloudinary and ImageKit for image storage, optimization, and delivery.

Relevant Coursework

Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Discrete Mathematics

Achievements

- Solved 250+ algorithmic problems on LeetCode covering Arrays, Linked Lists, Trees, Graphs, Dynamic Programming, and Binary Search.
- Strong understanding of algorithm optimization, problem-solving techniques, and time-space complexity analysis.
- Built and deployed multiple full-stack web applications using modern JavaScript technologies and cloud-based deployment platforms.
