GitHub — LinkedIn — LeetCode — Portfolio

Professional Summary

Aspiring Software Engineer and Full-Stack Developer skilled in Java, JavaScript, React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in developing full-stack applications with authentication, REST APIs, payment integration, and database management. Passionate about problem-solving, software engineering, and backend development with Spring Boot.

Education

Indian Institute of Information Technology Dharwad

2024 – 2028

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.5

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Docker, Postman, VS Code, Vercel

Cloud & Media: Cloudinary, ImageKit

Development Practices: Agile Development, CI/CD

Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Currently Learning: Spring Boot, Microservices Architecture

Projects

MultiCart – Multi Vendor E-Commerce Platform

Next.js — MongoDB — NextAuth.js

GitHub Repository

- Developed a full-stack multi-vendor e-commerce platform supporting Users, Vendors, and Administrators through Role-Based Access Control (RBAC).
- Implemented secure authentication and authorization using NextAuth.js, JWT, and protected routes.
- Built vendor dashboards for product management, inventory tracking, and order monitoring.
- Developed shopping cart, order management, and checkout workflows with Stripe payment integration.
- Designed responsive user interfaces using Next.js, React.js, Tailwind CSS, and Framer Motion.

Car Rental Platform

React.js — Node.js — Express.js — MongoDB

GitHub Repository

- Developed a full-stack car rental platform enabling vehicle browsing, booking management, and online reservations.
- Implemented authentication, authorization, and CRUD operations for vehicles and reservations.
- Built RESTful APIs using Express.js for booking workflows and user account management.
- Integrated MongoDB for managing vehicle inventory, customer profiles, and booking records.
- Designed responsive user interfaces using React.js and Tailwind CSS and integrated Cloudinary/ImageKit for media management.

Achievements

- Solved 250+ problems on LeetCode covering Arrays, Strings, Linked Lists, Trees, Graphs, Dynamic Programming, and Binary Search.
- Built and deployed multiple full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Continuously learning backend development, Docker, and Spring Boot while strengthening problem-solving and software engineering fundamentals.
- Demonstrated collaboration, communication, and teamwork skills through academic and software development projects.
